

PLEASE READ ALL SECTIONS CAREFULLY

THE FOLLOWING INFORMATION RELATES TO ALL CHAIRS AND STOOLS IN THE REM PRODUCT RANGE

Upon assembly ensure chair top and plate are firmly connected.

Never move or lift any chair / stool by arms or body as the chair top and pump have a tapered fit, consequences of ignoring this advice can result in the following occurring: -

- creation of air lock in pump
- pump and base can fall out of plate and cause damage or injury
- chair can be damaged

Should an air lock occur in a hydraulic pump, this can usually be dispelled by putting as much weight as possible on the chair, whilst pump is operated vigorously.

This notice relates to all chairs & stools in the REM range. 2011 brochure currently contains: -

Chairs:

Aero
Arena
Atlas
Evolution
Geo
