Component Details

Date: 05/08/2009 -- Edition 1

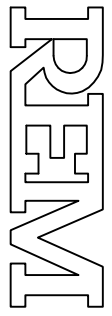

Produced by: PP

1. Remove top & bottom 2 shelf fixing brackets

2. Using the 2 screw holes from each bracket as a guide, drill a hole, central, through the laminated board (total 4 holes)
 3. Offer the laminated backboard to the wall and mark through each of the holes ensuring the unit is vertical (spirit level recommended)
 4. Drill and plug the wall depending on the construction of wall and fix the laminated board securely to wall using appropriate fixings (fixing not supplied).

5. Re-apply all four removed brackets.
